January/February

Insertion December 1, 2025

Artwork December 8, 2025

Biofuel in the Beltway

A look back at ethanol's first year under Trump 2.0 and what lies ahead for 2026 as EPA and Congress set the stage on policy and regulatory priorities.

March/April

Insertion February 2, 2026

Artwork February 9, 2026

Resilience in Transition

How ethanol producers are navigating leadership transitions, generational change, and workforce strategies to ensure long-term plant resilience and success.

May/June

Insertion April 6, 2026

Artwork April 13 2026

New Market Frontiers

From sustainable aviation fuel (SAF) and maritime shipping to chemicals and bio-based products, ethanol's role is expanding beyond traditional fuel.

July/August

Insertion June 8, 2026

Artwork June 15, 2026

Advancing Higher Blends

The latest on E15 and beyond at both the state and federal levels, plus practical tools for helping fuel retailers expand higher ethanol blend offerings.

September/October

Insertion August 17, 2026

Artwork August 24, 2026

Growing Innovation, Cutting Carbon

Carbon intensity reducing investments and what's driving those technology and operational choices.

November/December Global Fuel Markets

Insertion October 5, 2026

Artwork October 12, 2026

Examining low-carbon fuel markets abroad and within the U.S., and what it means for ethanol's role in an increasingly competitive, global landscape.
